Welcome to
SKYRHRG

Welcome to **SKYRHRG Technologies Systems**. We are a technology partnership founded with a clear mission: to empower every small business and local shop to get online. We believe that high-quality, reliable technology shouldn't be reserved for large corporations.

We are your long-term technical partners, dedicated to turning your ideas into reality. Whether you need a custom website, an automated hosting business (WHMCS), or secure cloud solutions, we handle the complex code so you can focus on growing your business. Our promise is simple: **Your dream, our technology.**

The SKYRHRG Team
Your Partners in Technology

Why You Should Choose Us?

Solutions

We bring your vision to life. Our team specializes in professional web and graphic design, creating beautiful, responsive websites that build trust. We are dedicated to helping small businesses and local shops get online with our affordable starter packages.

We go beyond design to build the complex "engines" that power your business. Our expert team handles custom backend development (PHP), powerful API integrations, and specialized WHMCS automation for the hosting industry.

A great website needs a strong foundation. We provide a complete ecosystem, including secure cloud hosting, ongoing IT maintenance, and digital marketing (SEO) services to help you attract customers and grow your brand.

Why You Should Choose Us?

✓ One-Stop Tech Partner

We are not just designers. We are a full-service team of developers, hosting experts, and marketers. Get your website, hosting, and marketing all from one reliable partner.

✓ Expert WHMCS & Hosting

We have expert-level knowledge of WHMCS and hosting automation. We build complex solutions (like our SKYiCloud brand) that other developers can't.

✓ Focus on Small Business

Our mission is to help small businesses and local shops get online. We offer affordable packages (like our ₹2999 starter site) and real, personal support.

✓ Proven In-House Tools

We build our own powerful tools (like Linux2Proxy) and use that expertise to create robust, custom solutions for your most complex technical challenges.

Our Services

We provide a complete ecosystem of technology services to build, manage, and grow your online presence. From your first website to complex automation, we are your partners.

Web & Graphic Design

We build beautiful, professional, and responsive websites for small businesses. Our services include logo design, UI/UX mockups, and affordable starter packages.

WHMCS & Hosting Solutions

Our core expertise. We provide expert WHMCS setup, custom module development, API integration (Virtualizor), and secure cloud hosting infrastructure.

Company Vision
& Mission

> Vision

We envision a future where any local business, "dokan" (shop), or entrepreneur can compete in the digital world, powered by affordable and reliable technology.

> Mission

Our mission is to help all small business owners get their shop or business online. We stand by the small companies who have no online presence, and we are always here for them.

Our Projects
Milestones

2025 (Jan) — Founded with a mission to help small businesses get online

2025 (Aug) — Established as a formal Partnership to expand our services.

2025 (Q3) — Launched "**SKYiCloud.com**", our flagship automated hosting brand.

2025 (Q4) — Launched "**Linux2Proxy.info**", our custom proxy management tool.

What Make Us Different?

We are a real, registered Partnership Firm, not anonymous freelancers. We provide professional, long-term, and accountable support for your business.

We are true technical experts. We build our own complex products (like hosting platforms and automation tools), and we use that deep knowledge to build better solutions for you.

We are mission-driven. Our goal is to empower small, local businesses with technology that is both powerful and affordable, including our popular ₹2999 starter websites.
